

Gravity of the Situation

[Vic Chesnutt](#)

Well, we blew past the army motorcade
Abnormal load haulage
And the gravity of the situation
Came on us like a bit of new knowledgeThe bubbliest bubble bath
Broke down on the bank
The gravity of the situation
Is why our old thought bubbles sankHumble and gracious
The gravity of the situation
A humble and gracious
The gravity of the situationHumble and gracious
The gravity of the situation
Humble and gracious
The gravity of the situation
The gravity of the situationWell, a fat, hungry English crow
Picking at a carcass
The gravity of the situation
Is hard to focus and harnessWell, we met Bill Lowery
At the Queen's Hall
The gravity of the situation
Became apparent to us allHumble and gracious
The gravity of the situation
A humble and gracious
The gravity of the situationHumble and gracious
The gravity of the situation
Humble and gracious
The gravity of the situation
The gravity of the situation
