

# Lollipop Porn

## Crazy Town

Dancing with the devil on the 13th floor  
Non stop knocking on heaven's door  
Thinking faster flirting with disaster plastered  
I'm your puppet master pushin' proper data  
Watch the city steal your soul as the drugs take control  
And the problems of the world put your life on hold  
You should have known by now that it just don't stop  
You like that rock hip-hop you make me grab my crotch

[CHORUS:]

I got a lollipop porn bitch  
Dead on arrival  
A hardcore sex bitch turned  
Suicidal  
All caught up now taking my chances playing my song  
While the devil dances 'round me beggin' me to play along

Now over the years I've learned to love the pain  
I'm what you call a ladykiller with the gift of game  
Triple X true that you do dat dat  
Let it ride bring it back over 24 tracks  
We're gonna rock the fuckin' block tonight  
We're gonna rock that shit gonna make it right  
Diggi, diggi damn right, we's dynamite  
So we can do this or you can do what you like  
I grab the mic and make it mine  
I grab the mic and make it hype  
So we can do this, or you can do what you like

[CHORUS]

Riding on the 3rd rail, taking risks, life is risky  
The "E" stands for Epic and the "S" stands for Shifty  
So let the good times roll, there's no controlling us  
Walking on water and kicking up dust  
The boisterous, causing panic in the land of lust  
The shellshock lollipop crazy down to make your body rock  
Sugar I love the way your body talks  
Now, whoever said that sex was overrated  
Love leaves me devastated, life's so fuckin' complicated

Shifty say what, Epic's a beat slut  
And I got so many rhymes I can't keep my mouth shut
