Mad About U

One Voice

i've been hoping everyday that you would come my way
my dreams came true the minute i laid my eyes on u
u excite me in every way, your aura is bombay
and you've got me mad, i'm proud 2 lay next to you.
my heart pulsates with every touch, this feeling is too much
i'm scaratchin up the walls,u got me crazy in my head
the heat between us is outta hand, i need you 2 understand
the way about you baby..
[Chorus:]mad about you baby, mad about you baby
i want you for my boo, i'm so in love with you
mad about you babe, mad about you baby
u got me sprung on you, you're all i wanna do
electric stimulations flow, you've got me wanting more
a fire burns i'm melting up inside when we cuddle oh so tight
this feelings is so right
and i think u know i u want to myself, cause..
dont you know i wanna be with you
i want you for more than just one night

and i think u know that you want me too
u got me going insane
[Chorus:]mad about you baby, mad about you baby
i want you for my boo, i'm so in love with you
mad about you babe, mad about you baby
u got me sprung on you, you're all i wanna do
i'm so happy because my Prince Charming has come riding
in the form of you, it's true
you've got me sprung and you've got me feeling so delicious
all because of you
don't you know i wanna be with you
i want you for the rest of my life and i know that
and you know u want me too
[Chorus:]mad about you baby, mad about you baby
i want you for my boo, i'm so in love with you
mad about you babe, mad about you baby
u got me sprung on you, you're all i wanna do [until fade..]
