On Legendary

Further Seems Forever

Now that we're one
Now softly whispers saving grace
6:19 as I awake
And stronger than last year
My eyes closed - the stars can see me
Stars will meet me on the ground
Summer's gone
And winter is never too far now
And my poor arms outstretched so long
That my bones are now breaking
But there you come with a smile
That'd send any man to his knees
And I feel I've begun
Now that we're one nowYou graciously add to i
Graciously add you to my heart
