

A Thousand Ways

La Sera

Eyes can meet a thousand ways, heart might skip a beat
But don't be afraid of my love, stay here with me always
You can see my eyes in the dark, these eyes have seen a lot
But don't walk away from my love, stay here inside my heart
Finally I found a love that is strange, it will take
you down

Love can be cruel, gone and wrecked this town
Love can do all of these things
Falling through the alleys at night, my mind has seen a lot
But don't be afraid of my love, stay here with me always
Eyes can meet a thousand ways, heart might skip a beat
But don't walk away from my love, stay here inside my heart
Finally I found a love that is strange, it will take you down
Love can be cruel, gone and wrecked this town
Love can do all of these things
Finally I found a love that is strange, it will bring you down
Love can be good, it can save this town
Love can do all of these things
Finally I found a love that is strange, it will take you down
Love can be cruel, gone and wrecked this town
Love can do all of these things
Finally I found a love that is strange, and it won't back down
Love can be real, it can stick around
Love can do all of these things
