Recover

Trik Turner

Been torn apart
Got so many scratches and scars
Maybe they won't all go away
But they'll fade
Maybe time can mend us together again
It's not what we've done but how far we've come

[Chorus:]
We will recover
The worst is over now
All those fires we've been walking through
And still we survived somehow
We will recover
The worst is behind and it hurts but in time I know that we will recover

Got so much to lose
Seems I've lost my power to choose
What to love and when to let go
That all changed
Get bitten once and then you're afraid
What a waste
Look what we've done
How far we've come

[Chorus]

Everybody's got their own reason to cry
Everybody fights but not everyone survives
Everybody searches, not everybody finds
And I'm still in recovery, help me make it out alive

[Chorus]
