

Shooting Star

[Lou Reed](#)

All the people had their share of the glory
Looking out after you
It's just a story about winners and glory
And you know that it's true Oh yeah, you're just a shooting star
Oh yeah, you're just a shooting star Some men make glory from a different condition, of another car
And later persuasion would permit the arranging of an earthen bar
And to cause all confusion and to make this illusion
Would have gone too far
And it's my ambition, of a jacket ignition, a Cadillac metal car Oh yeah, you're just a shooting star
Oh yeah, you're just a shooting star
Oh yeah, you're just a shooting star
Oh yeah, you're just a shooting star
You're just a shooting star
