Pete Yorn

Only save
Try to find another way
I'm taking what I gave to you again
Some new day I could understand your face
You could even hold my hand if you would like toIt came up unexpected
I had to follow through
And it's hard when you were working like you do
It was easy when you were younger
You can put it back together
It was there if you ever wanted it
But you closed the door and said goodbye for good
So this is a mistake
Try to find a better way
You were never fond of anything I said
Can we begin again?
Save it for another friendI was happy in my life I won't pretend
Every time you were expecting to reach out and forgive this
I was hardened by the look upon your face
It was easy when you were younger
You can put it back together
It was there if you ever wanted it
But you closed the door and said goodbye for good
For good?
You were easy
