

Different World (The Scumfrog Remix)

Simple Minds

It's alright.
It's alright.
Let me go high.
Let me go high.Let me go high,
Into a different world.
Let me go high,
Into a different world.It's alright, it's OK, to believe in something,
You find the spark inside yourself,
It begins from nothing,
From the man in the cave,
To the soul in the grave,
For the love of God,
Let me go now.Let me go high,
Into a different world.
Let me go high,
Into a different world.
High,
In a different world.
Let me go high,
Into a different world.It's alright, it's OK, to believe in something,
But if it falls between ourselves,
Could kill like nothing.
From the man in the cave,
To the soul of the brave,
For the love of God,
Let me go now.Let me go high,
Into a different world.
Let me go high,
Into a different world.
Let me go high,
Into a different world.
High,
Into a different world.
