Parricide

Pestilence

A life in desolation, remained in naievety
Criminal aberrancy, they rest among their ancestry
As an adolescent his life was filled with agony
Rancour put a tragic end to the affinityHis childhood and puberty were consisting
of maltreatment and abhorent humiliations
His accumulating fury leading to an
unimaginable horrible escalationDisposed of his relatives one by one
Convulsive twitch, morbid homicide
Increase of the dreadful phobia
Parental slaughter, infanticideParricideHatred actuated by the next of kin
The culprits of his painful education
The moment of judgement and punishment is there
Murderous massacre, obtruncationParricideSickened thoughts in his mind without repent
When he carries his mind to their fatal and
A reminiscense of death, disreputable history
Motive of retaliation, a revolting event
