

Bad Machine

Dark Stares

I want it
I need it
I got it
Believe it

I see her
Her fire
Two feelings
In spirals

I want in
I want out
Just wanted to feel proud
A change of a season
or something to believe in

You know it feels like heaven
Lord I try I can't find the reason
so come on

We're facing the ceiling
Escaping or dreaming
I wanted a piece of the action
in this town

I want in
I want out
Just wanted to feel proud
A change of a Caesar
or something to believe in

You know it feels like heaven
More I try I can't find the reason
You know it feels like heaven
Lord I try I can't find the reason

Find the reason

Find the reason

I want it
I need it
I got it
Believe it

I see her
Her fire
Two feelings
In spirals

I want in
I want out
Just wanted to feel proud
A change of a season
or something to believe in
