Esper

Loudness

A hurricane, alive with death and danger
She struck me down, made me feel the power
Crazy guys, you'd better fear the reaper
Belive it now... It's mystic power!After the storm, I see there's nothing standing
Death and destruction, corpses fill the city
I am reborn from those who died before me
Believe it now... It's mystic power!* Oh yeah, neverending fire, energy
Oh yeah, secret mystery, energy
You are Esper!
Esper! Esper! Esper!You'll never know the feelings I have tasted
You'll never see sensations I have wasted
The universe is open now before me
Sing me away... it's mystic power
