Silverstar

Beseech

One with the stars
A star is calling inside of me
Embraced by a flame
Eternal flames inside of me
Caressed by a light
Silver light inside of me
Deep inside of meIn a distance I see
My sacred funeral
Rivers of tears in family eyes
They scream out my name
And wish me heaven
But I feel the grace
Far awayI am the heartless one
I'm black inside
I am the silver bound, the mighty one
I am the evil one, I love the dark
You are my spellbound soul
And you will fade awayIn the stars I will find a mystical land
Nocturnal grace, close to my heart
I will forever trust in the stars
Trust in the silver or else I will fade away
