Good to Be Alive

Slash's Snakepit

You told me you're an orphan
The same old standard line
Then we moved in together
All you did was moan and cryTalkin' like you'd make it
On life's big movie screen
I had to say, I loved you
Just to try and keep the peaceHustler, what are you doin' with your time?
I'm slow to catch on
But I think you wasted mineYou're running low tonight
Jack up and get it right
You know, you're going down
Ain't it good to be aliveI couldn't make excuses about
Everything you said
You wanna show your bruises
Let's throw a party for the bandNow here they come a dancin'
Like the powder to your nose
Why don't you cut your head off?
Spite your face, let's do the showHustler, what are you doin' with your time?
I'm slow catchin' on
But I think you wasted mineHustler, you're running low tonight
The station's right close by
Pack up your car and drive
Ain't it good to be aliveTearing of the membrane
Of the first new thing in years
Found a nagging consolation
In a glass of EverclearAnd the ugly truth has raped you
Saying you're a lousy lay
But isn't everything that wayAin't it good to be alive
So good to be alive
