Something Sweet

Sylvain Beuf

Come to me, close to me
Park here beside me
Come to me, leave the rest far behind

Give me a moment
I need to say something
Give me a moment
I need to say something sweet

Can you feel all the same things
That I'm feeling
We are so ready to share all this

Give us a moment
We need to do something
Give us a moment
We need to do something sweet

I have all I need, I want nothing more
Far beyond from them, here with you
Would you stay?
Blow the world away

This is all I want, all I ever had
You and I right here a little more
Here we'll stay
Something sweet is on the way

Beautiful, powerful, feeling so strong
The stars close their eyes
They don't need to see

You are the reason
My whole inspiration
You are the reason
We're making something sweet

I have all I need, I want nothing more
Far beyond from them, here with you
Could you stay?

Blow the world away

This is all I want, all I ever had
You and I right here a little more
Here we'll stay
Something sweet is on the way

Something sweet
Something sweet
Something sweet
Something sweet

I have all I need, I want nothing more
Far beyond from them, here with you
Could you stay?
Blow the world away

This is all I want, all I ever had
You and I right here little more
Here we'll stay
Something sweet is on the way

Something sweet
Something sweet
Something sweet
...
