

# She's so Dangerous

[Jesse Malin](#)

When you're lying your bed  
And you no longer sleep the night  
And your friends have all moved on  
In life, this time She's so dangerous  
She breaks me down again  
She's an animal  
She knows just what I am When your holidays are cold  
And your family doesn't speak  
And you're hiding in your room  
It's alright, that's life Can I take to you to movies  
Can I play you rock & roll  
Can I take you past the bar nights  
Tell you things I've never told "Cause she's so dangerous  
She ain't preprogrammed  
She's no modern girl  
She knows just what I am I'm looking out for you  
I'm looking out for you  
I'm looking out for you Can I put you in my story  
Can I buy you something new  
Can I look at you forever  
Tell me what I'm supposed to do "Cause she's so dangerous  
She knows I got a gift  
She's no party girl  
It's just the way it is
