Hey Laura

Gregory Porter

Hey Laura it's me sorry but I had to rang your doorbell so late
But there's something bothering me I really am sorry but it just couldn't wait
Is there someone else instead of me go ahead and lie to me
And I will believe your not in love with him
And this bloke can see, that the rivers of your love flow up here to meHey Laura it's me sorry but I had to ring your doorbell so late
But there's something bothering me I really am sorry but it just couldn't wait
But I held the doze of make believe wont you lie to me
And make me believe that your in love with me
And this fool can see that the rivers of your love flow up here to meHey Laura it's me sorry but I had to ring your doorbell so late
But there's something bothering me all night long but I just couldn't wait
But I held the doze of make believe go ahead
And lie to me and make me believe that your in love with me
Oh this foul can see that the rivers of your love flow up here to meHey Laura it's meHey Laura it's meHey Laura it's me
