

# In Defiance (Various Live Tracks 87/89)

## Sacrifice

In defiance to you  
Your nightmares are coming true  
Gain at the expense of me  
Nothing in your life will ever come free  
Parasite who is full of praise  
Fuck your deceptive ways  
The beliefs that you hold  
Help you accomplish useless, futile goals  
You cannot be trusted  
I watch your plans unfold  
How long will it be before you sell away my soul  
In defiance we will take you away  
To a place where you never  
See the light of the day Victims of your senseless greed  
We must all take heed  
We are not slaves to your world  
Your ideas of life are nothing but absurd
