

Roads We've Never Taken

High Valley

Bucket seats, bucket lists
Eagles on the radio, girl watch this
Two young kids hot on the heels of a dream
Fire and dust under tires and rust
Long way to freedom baby, look at us
Two young kids, hot on the on the heels of a dreamLet's put that boot to the pedal, aw, that pedal to the metal
We ain't gotta settle for the same old sames
It's called leaving for a reason, mistakes are made for making
We don't know which hell we go
Roads we've never takenTwo lanes and two doors
Tennessee miracle, thank the lord
Should I be staring at you or this big blue-eyed sky
Gods paintbrush, your hair in the wind, dirt road heaven, I'm living in
I'll do the driving baby, you can drive me wildLet's put that boot to the pedal, aw, that pedal to the metal
We ain't gotta settle for the same old sames
It's called leaving for a reason, mistakes are made for making
We don't know which hell we go
Roads we've never takenMotel sex, paying cash
Mountain Dew and map co gas
Burnin' bread just county lines
Ain't no tellin' what we gonna findLet's put that boot to the pedal, aw, that pedal to the metal
We ain't gotta settle for the same old sames
It's called leaving for a reason, mistakes are made for making
We don't know which hell we go
Roads we've never taken
