Love

Allen Stone

Your heart is like a rubber band
When you give, it expands
And you might reach the stars
Depending on how flexible you are
Oh, life is like an ocean
Where everyone is floating
And if you want to find the beach, you
Gotta start kicking your feet(Love) What a reflection
(Love) It's a natural fact
(Love) Every bit you create
You get back
(Love) What a reflection
(Love) It's a natural fact
(Love) Every bit you create
You get backYour mind is like a flowerbed
And whatever you feed your head
Determines all your fate
Whether you blossom or you suffocate
Peace is like a pattern
Where every angle matters
And how you choose to see
Determines your functionality(Love) What a reflection
(Love) It's a natural fact
(Love) Every bit you create
You get back
(Love) What a reflection
(Love) It's a natural fact
(Love) Every bit you create
You get back
