

# Revolutionize Your Soul

Advisory - the following lyrics contain explicit language:

Maybe you can have all the things that you've ever dreamed of  
Maybe you can have all the things that you've  
ever dreamed of

Maybe you can drive your hummer down your gold plated streets with your dove

Of all the things you want to buy, how do they make you feel inside?

You won't find your light in the bargain bin

So you better start your path within and

revolutionize your soul

(revolutionize your soul)

What if you had never seen a skyscraper or a superstar

going up and down in an elevator never knowing where you are

Of all the things that you have seen

Do you even know where you have been?

Get up right now and look towards the light this may be your last chance to ignite and

Revolutionize your soul

Revolutionize your soul  
Maybe you can drive your hummer down your gold plated streets with your dove

You won't find your light in the bargain bin

So you better start your path within and
