

Feeling Gravity's Pull

R.E.M.

I fell asleep and read just about every paragraph
Read the scene where gravity is pulling me around

Peel back the mountains peel back the sky

Stomp gravity into the floor

It's a Man Ray kind of sky

Let me show you what I can do with it

Time and distance are out of place here
Step up, step up, step up the sky is open-armed

When the light is mine, I felt gravity pull
Somewhere near the end it said

"You can't do this", I said "I can too"

Shift sway rivers shift, oceans fall and mountains drift

It's a Man Ray kind of sky

Let me show you what I can do with it
Step up, step up, step up the sky is open-armed

When the light is mine, I felt gravity pull onto my eyes,

Holding my head straight (looking down)

This is the easiest task I've ever had to do
I fell asleep and read just about every paragraph
Read the scene where

gravity is pulling me around

Shift the swaying river's shift

Oceans fall and mountains drift

It's a Man Ray kind of sky

Let me show you what I can do with it

Time and distance are out of place here
Step up, step up, step up the sky is open-armed

When the light is mine, I felt gravity pull onto my eyes,

Holding my head straight (looking down)

This is the easiest task I've ever had to do

Reason had harnessed the tame

Holding the sky in their arms

Gravity pulls me down
