Fight The Feeling

The Expendables

Living in this small small town
Never had a chance to take a look around
What's going on right now?
To many people, they're trying to get around
What they stand for and what they really mean
Can you tell me who's your friend or whose your enemy
You will never grow to be strong
With a foundation built so weak

I know I can do what's right for me
I know I can live this life for me
In my future my happiness I hold the key
You will see

I never heard a word you said
I just can't fight the feeling
I never heard a word you said
And I just can't fight the feeling no more
So tell me how it sounds
When you're looking for something you've already found
It should be easy right from the start
The path is paved with desire from your heart
I've heard those stories they go when the truth ends
And in those same stories you know when the lies begin
You're caving to fast
You're never gonna last
Reflecting your mistakes you made in the past

I know I can do what's right for me
I know I can live this life for me
In my future my happiness I hold the key
You will see

I never heard a word you said
I just can't fight the feeling
I never heard a word you said
And I just can't fight the feeling no more
