Dance the Night away

Jan Wayne

We can dance the night away
So come on my friends and give us the feeling
Mr. DJ please make us move
Feel the vibes and we are ready to startWe can dance the night away
Come and celebrate the beat until morning
Mr. DJ please make us move
And the music takes our feelings awayWe can dance the night away
Come and celebrate the beat until morning
Mr. DJ please make us move
And the music takes our feelings awayWe can dance the night away
So come on my friends and give us the feeling
Mr. DJ please make us move
Feel the vibes and we are ready to startWe can dance the night away
So come on my friends and give us the feeling
Mr. DJ please make us move
Feel the vibes and we are ready to startWe can dance the night away
So come on my friends and give us the feeling
Mr. DJ please make us move
Feel the vibes and we are ready to start
