Ghost

Pearl Jam

The mind is grey like the city
Packin in and overgrown
Love is deep, dig it out
Standin in a hole alone
Workin for something one can never hold
A place in the clouds, good place to hide oh my oh

So I'm flyin away, away
Drivin away, away
Findin hope in ways I've missed before, I missed before

The tv, she talks to me
Breaking news and buildin walls
Sellin me what I dont need
I never knew soap made you taller

So I'm ridin away, away
Hidin away, away
So much talk it makes no sense at all, my senses have gone

So I hidin away, away
Drivin away, away
Passin new friends I wont know at all, wont know at all

It doesnt hurt when I bleed but my memories they eat me
I've seen it all before, bring it on cause I'm no victim
