# Fault

## Imperative Reaction

Hee yee eeaWhy did I let you inside my life?
How could I let you inside my body my soul my brain?
Now I can't make you go away
(Ooh)
You're driving me insane and inside out?
I can tell it's meaningful and so hurtful
There's no place just to hideI can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerableOh this is my fault
Oh this is my faultHow could I lie to myself again?
These bad decisions a never ending story
I think I'd know by now just how to 'bout to smile
You're driving me insane and inside out
Because it's meaningful and so hurtful
There's no place just to hideI can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerable
I can tell you this pain is so unreal
Can't help but feel left all alone
I can tell you to listen to me
When I say to you I knowThis is my fault
Oh this is my faultI know this is my fault
I know this is my fault
I know this is my fault
I know this is my faultI can tell you right now that
This pain that I feel is not just inside of my mind
I can tell you right now that
Its physical and painful to be so vulnerable
I can tell you this pain is so unreal
Can't help but feel left all alone
I can tell you to listen to me
When I say to you I knowThis is my fault
Oh this is my fault
Oh this is my fault
(This is my fault)
Oh this is my fault
Oh this is my fault
