Spark (feat. Rapture Ruckus)

Matthew Parker

Oh, we back! y a'll know what time it is!
Have you ever felt so alive outside you just couldn't contain it
Somethin's happening and you can't explain it
In a room full of strangers when we come alive inside everything changes.
We got the light burning so bright
Set fire to the night you know we just might
cause were also unashamed
power's in the name
theirs*Â *

There is nothing that can take this light away
We are a blaze, with no need to turn *Â Â *

We' ve got the fire in the rain
We've got the joy *helping* the pain
We've got a spark, spark, here in our heart,heart,
We' ve got the light to guide the way,
We've got the hope for darker days
We've got a spark, spark, here in our heart

Sometimes it could feel like the world beats you up in the cold
Feeling frozen in snow, when you know that nobody knows but,
you've got that fire that' s *Â Â * from the stars,
What it takes is a spark to ignite in the dark
Tonight it'll burn brighter than *Â *
Haters gonna hate but you' re gonna sleep
Life,
Yeah they don' t see, right?
Christ is the only person we wanna be like

There is nothing that can take this light away
We are a blaze, with no need to turn *Â Â *

We' ve got the fire in the rain
We've got the joy *helping* the pain
We've got a spark, spark, here in our heart,heart,
We' ve got the light to guide the way,
We've got the hope for darker days

We've got a spark, spark, here in our heart

So the darker will get the brighter you shine(x3)

So when the stone clouds come,
And the sky is black as night,
That spark is alive inside you
And is ready to ignite

Are you ready?

We' ve got the fire in the rain
We've got the joy *helping* the pain
We've got a spark, spark, here in our heart,heart,
We' ve got the light to guide the way,
We've got the hope for darker days
We've got a spark, spark, here in our heart
