You Always Let Me Down

Graham Coxon

You talk about money
You talk about soul
I guess you better get some before you get too old
Lay down on your side and say bye bye

You talk about money
You talk about soul
I guess you'd better get some before you get too too too old
Lay down on your side and say bye bye

I know they're sayin' that I never tried to stay by your side
Oh baby baby they'll take you for a ride

You always let me down (x3)
You always

You talk about money
There ain't none around
You can't seem to let me have the freedom that I found
Drop your foolish pride and say bye bye

What you sayin' that you haven't tried to say before?
Oh baby you know you been had before

You always let me down (x2)

Yeah yeah yeah yeah!

I know they're sayin' that I never tried to stay by your side
Well baby baby they'll take you for a ride

You always let me down (x3)
You always let me down, first chance you get (x4)
You always let me down
