Tonight Is Forever

Acid House Kings

I may be wrong, I may be right, money's short and time is tight
Don't even think about those bills, don't pay the price, we never will
We're out again another night, I never have enough
It will be like this forever if we fall in love
Tonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
I may be wrong, I may be right, so don't depend, I could lie
I haven't got a job to pay but I could stay in bed all day
Then out again another night, I never have enough
It will be like this forever if we fall in love
Tonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
Tonight, tonight, tonight, tonight
Tonight is the first night
We don't need anymore when we dance
I don't think of the future tonight
Tonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
I may be wrong, I may be right but I don't give up any night
You could say conventional and I could claim intentional
We're out again another night, we never have enough
It will be like this forever when we fall in love
Tonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
Tonight is forever, tell me now you don't disagree
Tonight is forever, open the door, you hold the key
Tonight
