Ex Marks The Spot

Matchbook Romance

love is just another word for pain
it's a broken record repeating the same thing
when you want it it's not there
when you have it you don't care
when i lose it in the end...
the heartbreak, the heartache is more than i wanted
we gave up, we made up
it's not like you cared
deception, depression is all that i've got
and but who said love was fair
and i've made up my mind
i'd be better off alone
love is just a waste of time
and all the lonely nights
and all the crushing scenes
and all the pointless fights
someone tell me what it means
someone tell me why hearts break
"cause sometimes i think this thing called love is another word for pain

and i'm giving up on happy endings
the one's that are only in movies
where the guy gets the girl and everybody's happy
i think that's the way it should be
the heartbreak, the heartache is more than i wanted
we gave up, we made up
it's not like you cared
deception, depression is all that i've got
and but who said love was fair
and i've made up my mind
i'd be better off alone
love is just a waste of time
and all the lonely nights
and all the crushing scenes
and all the pointless fights
someone tell me what it means
someone tell me why hearts break
"cause sometimes i think this thing called love is another word for pain
is another word for pain

is another word for pain
nah, nah, nah, nah, nah, nah...
