Slow Rollinâ€™

Dallas Smith

Everybody's got addictions,
For me its gotta be you
So slip in to something that don't take long
And slip in and bring me those baby blues,
Elderodo shined up, gotta little extra cash
And a quarter tank of premium
Lets see how long it lastsBaby jump in my Cadillac
Slide in the middle or climb in the back
We can dance all over the fm dot
Sweet home country destiny's child
Light turns red light turns green
Sneak a little something in between
Steering wheel is steady when you're ready girlWe can put a new spin on these wheels
Tip a little old mill I kick back,
Talkin' bout how damn good it feels
Street lights glowing,
Slow rollin' this town with youI can already hear you singing
I can already see your smile
With forty-four leanin' on the door
Kick back crusin' down dine and shore,
I pass the dollar general
Down to the end of the strip
Make a you-ie, hang a lou-ie
Feel that automatic shiftBaby jump in my Cadillac
Slide in the middle or climb in the back
We can dance all over the fm dot
Sweet home country destiny's child
Light turns red light turns green
Sneak a little something in between
Steering wheel is steady when you're ready girlWe can put a new spin on these wheels
Tip a little old mill I kick back
Talkin' bout how damn good it feels
Street lights glowin,
Slow rollin' this town with youWe can put a new spin on these wheels
Tip a little old mill I kick back
Talkin' bout how damn good it feels
Street lights glowin',
Slow rollin' this town with youBaby jump in my Cadillac
Slide in the middle or climb in the back

We can dance all over the fm dot
Sweet home country destiny's child
Light turns red light turns green
Sneak a little something in between
Steering wheel is steady when you're ready girl
