I See the Light

Hot Tuna

In this world I'm livin' in, I see the light
Sins are gone, now I know what is wrong and right
Mornin' came on slowly, pushin' back the night
It's good times now that I can see the lightOn this road I'm walkin' on, I see my way
Paradise I'm livin' for, each and every day
'Bout the crossroads of the past, nothin' more to say
It's good times now but we can see our wayIn this sea I'm movin' through, feel my life complete
With the one I'm livin' for, time is, oh, so sweet
Feelin' us together, livin' in the bright
It's good times now, we can see the lightIn this world I'm livin' in, I see the light
Sins are gone, now I know what is wrong and right
Mornin' came on slowly, pushin' back the night
It's good times now that we can see the light
