

# Stay

## DJ Encore

I won't pretend tonight  
That what I did was right  
I know I broke your heart  
I tore it all apart Do you believe in destiny  
And second chances? Stay tonight  
Let the moment be forever  
I don't wanna force your heart to Stay tonight  
If we make it last together  
Everything is gonna be alright I know the table's turned  
I felt my fingers burn  
And if you let me go  
I'm just a fragile soul Do you believe in destiny  
And second chances? Stay tonight  
Let the moment be forever  
I don't wanna force your heart to Stay tonight  
If we make it last together  
Everything is gonna be alright Stay tonight  
Let the moment be forever  
I don't wanna force your heart to Stay tonight  
If we make it last together  
Everything is gonna be alright Stay tonight Stay  
Forever
