

Schizoid Man (feat. New Arcades)

Futurecop!

I wanna be where I can't be found
And I don't need anybody around
And I have to leave 'cause this is my escape
I wanna see, just walk away
Don't look for me, I'll be out of sight
This is the place to be
Come on out and fightCome on out of the fight
Come on out of the fight
Come on out of the fightI wanna be where I can't be found
And I don't need anybody around
And I have to leave 'cause this is my escape
I wanna see, just walk away
Don't look for me, I'll be out of sight
This is the place to be
Come on out and fightCome on out of the fight
Come on out of the fight
Come on out of the fightI wanna be where I can't be found
And I don't need anybody around
And I have to leave 'cause this is my escape
I wanna see, just walk away
Don't look for me, I'll be out of sight
This is the place to be
Come on out and fightCome on out of the fight
Come on out of the fight
Come on out of the fight
