

# Music In My Blood

Cassidy

(I can feel it)  
Music be flowing through my veins  
(Oh I can feel it)  
Music be flowing through my veins  
The game change people, they don't love me the same  
But music in my blood, I got love for the game(x2)I've played the drugs scene, thats sold drugs to drug fiends  
Coz I love cream but music is in my blood stream  
Im heavy'O on the radio in the club scene  
My fans don't understand what say no to drugs meanBlood diamonds, bentley love like dove cream  
I watch dirty money, but make sure the tub clean  
Nigga my bars off the richter  
Is the dude that rock a lotta jews like (Hitler)If a nigga try stop me from getting richer  
I spit them shots, and pop niggaz like ur sister  
I clap it, me and the ratchett a bad mixture  
When I hit ya your gonna need more than talinor lixorI spit the chopper doc wont be able to fix ya, brother  
Your mother, and all your babies will miss ya  
I'm from philly, I ball but no im not a sixer  
Barry not illegal either, I carry illegal heatersYou not about what you said you were 'bout,  
My lifes a movie don't get edited out  
And, you should watch who your wife let in the house  
Coz I aint sleep with her but I slept with her mouthIm pathetic, hell-a-don, contastetics in her mouth  
skeet skeet, got onna dem teeth pregnant in her mouth  
Niggaz complain bout the rap game  
Cats in the game, aint rapping the same, raps changedThey like Cas we need you to come back man  
Raps so lame, you got that crack cocaine  
My flow flames, caroesine and phutane, gasoline and propane  
I aint playin no gamesBack when I started to rap, I aint had no change  
I was committed with, stuck with it until the dough came  
Thats why I got love for this music  
Not only did I write it I produced it  
This ExclusiveMusic be flowing through my veins  
(I can feel it)  
Music be flowing through my veins  
The game change people dont love me the same  
But music in my blood, I got love for the game (x3)Music be flowing through my veins (x4)
