

Falling (feat. April Schmidt)

Jamestown Story

I feel like I'm falling,
Seriously falling hard for you
Oh, forever's a long time
But far from enough time
To spend with you I will always be there
I will always be there So fall, I'll be behind you,
I'll be there to guide you
When you've lost your way
Yeah, forever's long time
But far from enough time
To spend with you I will always be there
I will always be there So go and call your parents and tell them the good news
Say you've fallen hard and there's someone that needs to meet you
We'll pick out a white dress and grab two golden bands
The world stared in jealousy cause no one understands like
You and me
I will always be there
I will always be there
I will always be there
I will always be there I feel like I've fallen,
Seriously fallen hard for you
