

# Underpass (Mark Reeder Sinister Subway Mix)

## John Foxx

Standing in the dark  
Watching you glow  
Lifting a receiver  
Nobody I knowUnderpass  
UnderpassWell I used to remember  
Now it's all gone...  
World War something...  
We were somebody's sonsUnderpass  
UnderpassOver all the bridges  
Echoes in rows  
Talking at the same time  
Click-click drone...Underpass  
UnderpassMisty on the glass now  
Rusty on the door  
Here for years nowClick-click drone  
Click-click drone  
Click-click drone  
Click-click drone  
Click-click...Underpass  
Underpass  
Underpass  
UnderpassUnderpass  
Underpass  
Underpass  
Underpass
