

# Dangerous

## Ghost Of The Robot

I don't think you know my name  
I think you'd leave me standing in the rain  
You're a pretty little girl, got a thing for me  
But you'd cut me open and let me bleed  
But I'll be lookin' at you  
With your long brown hair  
Pretty little feet  
Sparkling everywhere  
You look so good  
When you come my way  
But I have to look down  
When you talk to me  
'Cause you're dangerous  
Dangerous  
Dangerous  
And you don't even know it  
One baby, two, maybe three more years  
You'll be a full hot baby, have all your curves  
And here's a little taste of irony  
You'll be a too-hot baby, too good for me  
But I'll be looking at you  
With your long brown hair  
Pretty little feet  
Sparkling everywhere  
  
You look so good  
When you come my way  
But I have to look down  
When you talk to me  
'Cause you're dangerous  
Dangerous  
Dangerous  
And you don't even know it  
So little baby, you better stay set  
Play with fire when you get too wet  
So set me down and leave me be  
You'll get a devil when you unchain me  
But I'll be looking at you  
With your long brown hair

Pretty little feet  
Sparkling everywhere  
You look so good  
When you come my way  
But I have to look down  
When you talk to me  
'Cause you're dangerous  
Dangerous  
Dangerous  
And you don't even know it
