

# Angels With Even Filthier Souls

## Hawthorne Heights

Just stay the night  
And well see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever

Every day, this I say  
Turn to dust and fade away  
This will last forever

Every day, this I say  
Turn to dust and fade away  
This will last forever

Still waiting for tomorrow  
Just wait for today  
To close my eyes

Waiting for tomorrow  
Just wait for today  
To say goodbye

She never said she loved me  
She never said goodbye(X4)

Just stay the night  
And well see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever

Every day, this I say  
Turn to dust and fade away  
This will last forever

Every day, this I say  
Turn to dust and fade away  
This will last forever

Still waiting for tomorrow

Just wait for today  
To close my eyes

Waiting for tomorrow  
Just wait for today  
To say goodbye
