

# Peace from God

[CeCe Winans](#)

when the night is dark, fire you had has lost its spark  
take a little peace from god, take a little peace from god  
let it burn in your heart  
when your land is dry, rain only fall from your eyes  
take a little peace from god  
take a little peace from god and the river you'll find  
its yours gonna takin so just take a little peace from god  
its yours gonna makin so just take a little peace from god  
its already given so just take a little peace from god  
he is right where you are  
when your faith is weak toss by the waves of all the sea  
take a little peace from god just a little peace from god  
he has more then you need  
its yours gonna takin so just take a little peace from god  
its yours gonna makin so just take a little peace from god  
its already given to us so just take a little
