

Never Again

Danny Fernandes

baby stop and thinking about it
tell me where did we go wrong?
how did it end like this ?
can we work it out i doubt it we did all we and baby, i can't go on like this
i never did you wrong your Tripping
listening to your friends and all the bullshit they had to say
it's like they loved you more then i did
so baby roll with your crew
and do what you gotta do because
i never wanna kiss you again
never wanna walk through the park holding your hand
no more talking all night until the early morning
it's such a shame to say that we'll never be the same...again
baby stop and think about it
you lied to me, lied to me

baby stop and think about it
you lied to me, lied to me
the love we once shared girl no longer
it no longer remains and more it's harder.
the pain because
She Never Really Knew She Wondered.
She Never really knew she wondered
was she being untrue or was i being a fool because
im Gone and. I'm Never coming home
so baby don't call cause i won't answer the phone
stay out of my life baby just leave alone
And it's Such a Shame To Say That We'll never be the same
i never wanna kiss you again.
Never Wanna walk through the park holding your hand
no more talking all night until the early morning
it's such a shame to say that we'll never be the same...again
