

Changes

Craving Lucy

Give me a little time to find myself
To find whats lost in me
Cuz I've been down this road before I know it well
Somebody rescue me now

Cuz I
I'm afraid of changes
I've realized these were changes I made for you
It's everything I thought that I wanted
Now it's changing me
Now it's changing me

Living in this world of make believe I hide
Now that I'm here alone
Sentimental memories burried deep inside
with feelings never shown no

Cuz I
I'm afraid of changes
I've realized these were changes I made for you
It's everything I thought that I wanted
Now it's changing me
Will I ever get it right
Do I listen to what's inside

Now these changes and places and faces are changing me

Cuz I
I'm afraid of changes
I've realized these were changes I made for you
It's everything I thought that I wanted
Now it's changing me
I'm afraid of changes
I've realized now it's changing me
Now it's changing me
