Graveyard Chamber

Gravediggaz

Danger, danger, danger danger
The graveyard chamber
Danger, danger, danger, danger, danger, danger
The graveyard chamberDanger, danger, danger, danger
Enter the graveyard chamber
Danger, danger stranger is major
Enter the graveyard chamberAh, here a moan the night is dark and feel fear
You're lost, cold and confused but I'm in prayers
Afraid of a beast that stalked the earth
You're bringing the Jesus, it cross don't workI seen your type before you read all the laws
But you're scared to go to war
Timid and frail why faith got ya geese
Ya stolen the truth and that all your beliefsAre you aware son
It's nowhere to hide, nowhere to run
Grymreap comes with my dangerous tongue
I'm outta control like yo kids with gunsWords that stored in a murderous thoughts
My profile as nasty as maggots in pork
I'm dark and damp, enough to rush amps
With the jaws of a flat bull or rusty canDanger, danger, danger, danger
Danger, danger, danger, danger
It's the graveyard chamberI be the bush wick dutch master rapper
I love black women and I hate fuckin' crackers, check me yo
My breath stink 'cause I smoke skunk punk
Everyday of the month in a dutch master fuckin' bluntBust the cliche
Niggas talkin' he say, she say about me
Ya bitch ass niggas, y'all not ass, y'all titty, y'all style is shitty
How dare you try to represent New York fuckin' city?I been down since B V D's and Dew Rags, shell tops and shags
I'm the little bad ass with regular and tre bags
Always tryin' to get shit I never had
'Cause times is bad like luck that's why I don't give a fuckI dig up my nose and my butt
On the bus or the train
This is for niggas walkin' in the rain
Listenin' to they Walkman
Talkin the New York fuckin' slangDanger, danger, danger, danger
Danger, danger, danger, danger
It's the graveyard chamberIn the streets of New York bullshit walk, green talks
I be the giant on the top of your beanstalk
Waving down your flags, jagged grab niggas with bloody rags

Holdin' fat bags takin' heavy drags then I add more shells to the magsShots goin' off you gettin' caught like tag
The diamond crystal I be rippin' up your flesh tissue
To have my pit bull lockin' on your bone gristleCastin' shadows in every battle
I rabble words like scrabble
Drag your brain through the gravel
At the speed of sound of rhyme travelAllow me to dabble with a flow that's infallible
Maintain your order as words I slaughter
I destroyed a whole city like Soddom and Gomorrah
Or Babylon I'm runnin' shit like a marathon
Niggas frontin' don' with a set like Frank AvalonShabazz is here to cause panic
Another fuckin' madman born to the planet
Sendin' niggas to the pearly gates
I'm psyched out, I've got screws loose like Norman BatesShoot shit up like it's a gallery
Blowin' snakes heads off to earn me a salary
Devils choke from the gun smoke
Once I'm provoked I shove a fifth long down ya throatAnd let ya taste the steel
Another body unidentified shit from the pot is spilled
Ya punk ass'll get out traumaed
I'm swellin' devils' melons for my man Farak' MuhammedGet a crew and try to surround me
And one by one I'll light y'all up and send ya asses to king's county
Solo pro-morgue supplier, ya want a nigga bang
Fuck Spenser, 'bazz for hireMake room the masculine gatekeeper
Kicks suspense in a terrified forms that keep you warm
You're tensed up niggas get wrenched up on a rock
Mix a whiplash bodies are gettin' smashedSo let the volcano blow and erupt destruction drift off
Niggas are gettin' flipped on
Yeah comin' after ya, huh I only got half a ya
Other part froze in Alaska while define the feast a high beamGhost of a drug fiend I'm physical dreams
I breathe steam thoughts are plutonic
The chronic scripture angles and riptures I get ya
Yo, I smash like a comet punish tha drain yaDanger, danger, danger, dangerI stalk the face like a leopard, the microphone shepherd
Is speakin' parables one and two, catch it
The brain counselor, track fertilizer the murdalizer
You never heard a wiserI open heads like the archives
Allow me to explain my brain in the dark side
I strike ya beam and watch it gleam
I'm solar steadfast, patient like NoahThe rap psycho be the enlightener
Prey upon the weak, the strong I'm the sniper
And light that ass like gasoline
I dig through your chest like a jar of vasolineI leave your brain regurgitating plancid until your rhymes are exasperated
I clip up a niggas thoughts with a pool of zodiac signs
And I slowly attack the mind the killa priest will bend your ideas
I see you cry in fear there's no surviving hereDanger, danger, danger, danger, danger, danger

It's the graveyard chamber
Danger, danger, danger, danger, danger, danger, danger danger
It's the graveyard chamber
Danger, danger, danger, danger
