Graveyard Chamber

Gravediggaz

Danger, danger danger

The graveyard chamber

Danger, danger, danger, danger, danger

The graveyard chamberDanger, danger, danger, danger

Enter the graveyard chamber

Danger, danger stranger is major

Enter the graveyard chamberAh, here a moan the night is dark and feel fear

You're lost, cold and confused but I'm in prayers

Afraid of a beast that stalked the earth

You're bringing the Jesus, it cross don't workI seen your type before you read all the laws

But you're scared to go to war

Timid and frail why faith got ya geese

Ya stolen the truth and that all your beliefsAre you aware son

It's nowhere to hide, nowhere to run

Grymreap comes with my dangerous tongue

I'm outta control like yo kids with gunsWords that stored in a murderous thoughts

My profile as nasty as maggots in pork

I'm dark and damp, enough to rush amps

With the jaws of a flat bull or rusty canDanger, danger, danger, danger

Danger, danger, danger

It's the graveyard chamberI be the bush wick dutch master rapper

I love black women and I hate fuckin' crackers, check me yo

My breath stink 'cause I smoke skunk punk

Everyday of the month in a dutch master fuckin' bluntBust the cliche

Niggas talkin' he say, she say about me

Ya bitch ass niggas, y'all not ass, y'all titty, y'all style is shitty

How dare you try to represent New York fuckin' city? I been down since B V D's and Dew Rags, shell tops and shags

I'm the little bad ass with regular and tre bags

Always tryin' to get shit I never had

'Cause times is bad like luck that's why I don't give a fuckI dig up my nose and my butt

On the bus or the train

This is for niggas walkin' in the rain

Listenin' to they Walkman

Talkin the New York fuckin' slangDanger, danger, danger, danger

Danger, danger, danger

It's the graveyard chamberIn the streets of New York bullshit walk, green talks

I be the giant on the top of your beanstalk

Waving down your flags, jagged grab niggas with bloody rags

Holdin' fat bags takin' heavy drags then I add more shells to the magsShots goin' off you gettin' caught like tag

The diamond crystal I be rippin' up your flesh tissue

To have my pit bull lockin' on your bone gristleCastin' shadows in every battle

I rabble words like scrabble

Drag your brain through the gravel

At the speed of sound of rhyme travelAllow me to dabble with a flow that's infallible

Maintain your order as words I slaughter

I destroyed a whole city like Soddom and Gomorrah

Or Babylon I'm runnin' shit like a marathon

Niggas frontin' don' with a set like Frank AvalonShabazz is here to cause panic

Another fuckin' madman born to the planet

Sendin' niggas to the pearly gates

I'm psyched out, I've got screws loose like Norman BatesShoot shit up like it's a gallery

Blowin' snakes heads off to earn me a salary

Devils choke from the gun smoke

Once I'm provoked I shove a fifth long down ya throatAnd let ya taste the steel

Another body unidentified shit from the pot is spilled

Ya punk ass'll get out traumaed

I'm swellin' devils' melons for my man Farak' MuhammedGet a crew and try to surround me

And one by one I'll light y'all up and send ya asses to king's county

Solo pro-morgue supplier, ya want a nigga bang

Fuck Spenser, 'bazz for hireMake room the masculine gatekeeper

Kicks suspense in a terrified forms that keep you warm

You're tensed up niggas get wrenched up on a rock

Mix a whiplash bodies are gettin' smashedSo let the volcano blow and erupt destruction drift off

Niggas are gettin' flipped on

Yeah comin' after ya, huh I only got half a ya

Other part froze in Alaska while define the feast a high beamGhost of a drug fiend I'm physical dreams

I breathe steam thoughts are plutonic

The chronic scripture angles and riptures I get ya

Yo, I smash like a comet punish tha drain yaDanger, danger, danger, dangerI stalk the face like a leopard, the microphone shepherd

Is speakin' parables one and two, catch it

The brain counselor, track fertilizer the murdalizer

You never heard a wiserI open heads like the archives

Allow me to explain my brain in the dark side

I strike ya beam and watch it gleam

I'm solar steadfast, patient like NoahThe rap psycho be the enlightener

Prey upon the weak, the strong I'm the sniper

And light that ass like gasoline

I dig through your chest like a jar of vasolineI leave your brain regurgitating plancid until your rhymes are exasperated

I clip up a niggas thoughts with a pool of zodiac signs

And I slowly attack the mind the killa priest will bend your ideas

I see you cry in fear there's no surviving hereDanger, danger, danger, danger, danger, danger

It's the graveyard chamber Danger, danger, danger, danger, danger danger It's the graveyard chamber Danger, danger, danger, danger
