

# City Voices (B-Side)

Mew

From the sounds of approaching footsteps  
I got scared that it wasn't you  
I had heard about the thing that happened  
Still I hope that it wasn't true  
But there in the dark voices  
Call out someone's name  
Have you heard by the city voices  
Voices that tell you secrets  
Your eyes told of a million memories  
Your mouth spoke of a million things  
I said you were cool  
You said 'no'  
I asked you why You said  
Don't trust the city voices  
Voices that fill you with lies  
You said  
Don't trust the city voices  
Voices that fill you with lies
