

Sanctuary

My Ruin

Dishonest, you came with your first kiss
Blue eyes sold me all your heavenly presence
Something was suffocating me and I couldn't breathe
Had no idea that you would ever deceive I tried to believe all the things that you taught me
Christ like images of truth, they straight got me
Now watch me drown in sadness
My lungs gasp for air as I let you stab this heart And rip apart wounds that exist
Deeper and darker than any words I could spit
All is shit and it will never be well
Because the fires that burn are my never ending hell Is this what you call God?
Your faith is lost
Is this what you call God?
Get off your cross
Get off Bridges connect for necessity
Lifelines scar my hands like the rest of me
Asked me to trust you and yes, I tried to
Constant apologies caused me to lie too Tried to medicate my hate with your magic
How could something so sweet end up so tragic?
Resurrect me from this abyss
In death, every body function fails to exist False commitments, tongues twisted with religion
A heart shaped rock of the same size incision
Obsolete with no relief or release
Just insomnia filled nights of never ending sleep Is this what you call God?
Your faith is lost
Is this what you call God?
Get off your cross Split a piece of wood and I am there
Lift a stone and you will find me
Are you still scared? Sanctuary
Sanctuary
Sanctuary
There's no sanctuary Is this what you call God?
Is this what you call God? Is this
Is this
Is this
Is this what you call love? Get off, get off
Watch me
Get off, get off
Watch me
Get off, get off

Now watch me fallI swallowed all of your lies
And they felt good going down
Death be not proud
