

# Asleep, I Lie

## Earshot

I can't stay forever  
And you're too insulting to me, darling  
I can't live forever  
And be who they want me to be, I cannot pretend  
I will not surrender these dreams in my head  
I, I will not disguise  
They cannot cover the stars in my eyes  
(Asleep I lie) Fall, like I do  
Will this be the first time for you?  
Walk on me, I walk on you  
Stuck on me, stuck on you, I cannot pretend  
I will not surrender these dreams in my head  
(Asleep I lie)  
I, I will not disguise  
They cannot cover the stars in my eyes  
(Asleep I lie) All the things they're telling me  
Make me wanna up and leave  
But I'm not sure that now's the time  
And I'm not sure of anything But even if I crossed the line  
At least I'm being true to life  
It's me out with the stars tonight  
It's me out with the stars tonight, I cannot pretend  
I will not surrender these dreams in my head  
I, I will not disguise  
They cannot cover the stars in my eyes  
(Asleep I lie) I, I cannot pretend  
I will not surrender these dreams in my head  
I, I will not disguise  
They cannot cover the stars in my eyes  
Asleep I lie
