Bangs

Your Friend

...
bring me your ...
smile on me live in silence
its you
worry of spring
loud like you used to
you know
you know
you know
soft teeth
breathe me
small knees leaning against you
you know
you know
you know
who's inside we wait
who's inside we wait
who's inside we wait
who's inside we wait(butchered this one, good luck figuring the rest out!)
