

Bangs

Your Friend

...

bring me your ...
smile on me live in silence

its you

worry of spring

loud like you used to

you know

you know

you know

soft teeth

breathe me

small knees leaning against you

you know

you know

you know

who's inside we wait

who's inside we wait

who's inside we wait

who's inside we wait(butchered this one, good luck figuring the rest out!)
