

# Faithful & True

## Johnny Earle

Faithful and true....

faithful and true.....

I was believe to fall in love was forever more i love to see i realise now but did'nt before it takes more than the  
kiss on the moon in night takes more than the prison to put things right early ask there is no long the two of the  
way that your love grows strong is...

Faithful and true.....Faithful and true..... When you got the blues and your feeling down is no point shout the tree  
tops down i've learned my lesson i learn it well without that girl my life be hell its more than the kiss  
On the moon in night takes more than the prison to put things rights early ask there is no long the two of the  
way that your love grows strong

Faithful and true.....Faithful and true..... faithful right till the end your love will....your true friend all these  
things i know i'll do i will never find another you...ohhh....

faithful and true..... Faithful and true.....

Faithful..... And so true.....
